EDITORIAL

40 years and launching a new logistic centre

It seems like yesterday but it will already be 40 Years in September since the Organization that created Twintex was founded.

We are proud to present a Special Edition of the Twintex Magazine with the very New Logistic Center: with a total area of 4.000 Sqm and only five minutes away from Twintex Main. The new facility welcomes Raw Material Warehouses, Cutting Department, Thermo Fusion, Ready Garment Warehouse and Production Expedition with the Top of Art Conditions, in order to give to our Customers an improved Service every day.

The free space at Twintex Main allows us to profoundly redesign the production Layout and bring our MK production Chain into the Main Building. Thus our Six Production Chains (one for Dresses, one for Skirts, two for Trousers and two for Blazers) will be upgraded into more comfortable, spacious and efficient structures with the Priority Goal of better suiting our Customers.

The conviction behind this Important Investment is boosting Twintex's Capacity of Response into a faster, more efficient, secure and modern Factory.

Always aiming of **Being the Clothing Manufacturer of the Future!**

PRODUCT

DEVELO

A woman with long, wavy red hair is shown from the chest up, wearing a dark, textured blazer. She is looking down and to the right. She has large, colorful, multi-tiered earrings. The background is a blurred outdoor setting with architectural elements.

1200 Blazers, Coats or Jackets . 1200 Trousers; skirts or shorts . 1200 Dresses

Total: 3600 garments per day, all produced in Portugal.

CHOOSE YOUR OWN FABRIC AND TRIM IN HOUSE: TWINTEX SOLUTION CENTER

Full Product Development takes place at Twintex Main for Blazers, Coats, Dresses, Trousers, Skirts or Shorts. The High-Quality Production is a standard for us whether it takes place at Twintex Main or at a Twintex Satellite. A really important Service is the steady partnership with the best Fabric Mills in Europe, we are able to deliver to our Customers the possibility of developing unique fabrics at a competitive price.

Inside Twintex, the Creative Direction of our Customers is fully respected by an entire dedicated team where our Pattern Designers are comfortable to develop efficient patterns from a simple sketch or photo.

CARING FOR OUR PEOPLE AND THE ENVIRONMENT

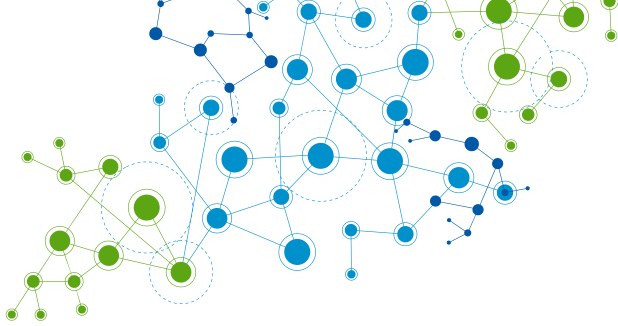

On the **Ecological Front** Twintex has been implemented several measures to Protect Our Planet and Lower the Emissions. Over the last 10 years, Twintex reduced around 60% of CO2 which leads us to get **ISO 14001** Certification for Environmental Management System. This brutal reduction was possible by Photovoltaic Panels which are able to produce **55% of Twintex's electricity demand**, the usage of **Natural Gas, Solar Panels, Recycling, Thermal Insulation Roof, UV Ray Protection** films on windows, **Controlled Water Tabs, Eco-friendly tube lighting** and **Eco Machinery**.

Further, Twintex takes care of all employees as **Social Compliance** is Key for us in two ways: **Internal and External**. Internally, Twintex has a wide range of initiatives to **encourage and motivate** our workers' **talent and performance**. We have monthly events, monetary or judicially support when needed, free doctor appointments, free breast cancer screening tests, the TLC – **Twintex Life Card** which give several discounts on local services and many more. Externally, Twintex defends Social Compliance by supporting Associations, Universities, Sports, Schools, Artists and local events. Thereby, Twintex is certificated with ISO SA 8000 Social Responsibility.

PREPARE OUR TEAM TO BE BEST IN CLASS

The Twintex Academy aims to **Qualify and Requalify** a team by the values we stand up for as **Quality, Environmental Concerns, Social Compliance, Customer Care and Respect**. Living in a Textile area by tradition is for sure an advantage. The sensitiveness for manufacturing allows us to transform the working experience and passion into the highest quality fashion, by the **Art of Manufacturing**.

Twintex is being driven by the constant Thrill of going beyond what we have already achieved. The Twintex **EVolution Concept** exists to inspire ourselves and everyone attached to us to seek important fields such as Environment Protection, Social Compliance, Technology, **Efficiency and Productivity**. The Primary Goal is to keep our Structure constantly updated in order to always deliver a service of excellence and reach the Highest Satisfaction of a Twintex Customer.
