Transatlantic Commerce and **Twintex** EVOLUTION...

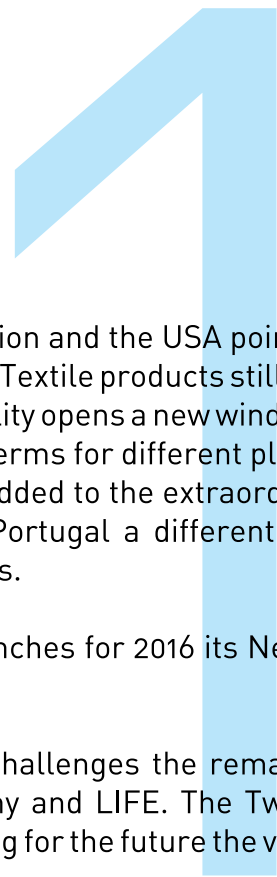

Recent bilateral Negotiations between the European Union and the USA point out the possibility of abolishing Tax Barriers which European Textile products still have to pay to access the North American Market. That possibility opens a new window of business for the European Industry, by leveling access terms for different players entering the North American Market. That new reality added to the extraordinary Portuguese know-how on the Textile Industry, gives Portugal a differentiating factor which will potentiate the Business Growth Overseas.

Always proactively looking into the Market, Twintex launches for 2016 its Newest Concept: Twintex EVolution.

EVolution is Twintex´s Concept which systematically challenges the remaining three existing Concepts which are Ecofashion, Academy and LIFE. The Twintex EVolution Concept Concentrates the strength of projecting for the future the values on which Twintex is inspired today.

With the help of Twintex EVolution we wish to keep alert and willing to keep on dreaming, and then doing.

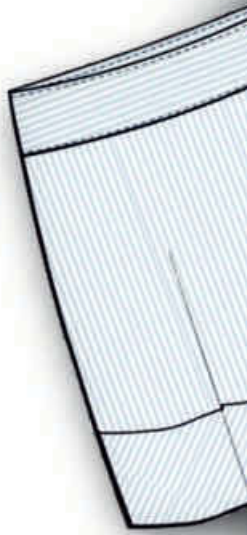

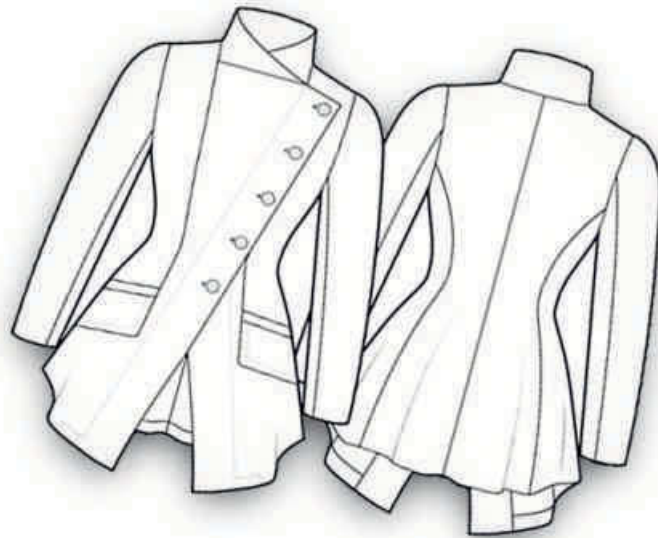

Confidently, see you next Year!

After attending the Fashion Design Master Degree at University da Beira Interior, of Twintex Partners, my natural wish was to develop to be the most well known Brands, as any Graduate would be.

I knew Twintex from the very close support they offer to the University, from the visits we had during the course, and now looking back, I can only thank this opportunity.
