Portuguese Textile Industry Back on Track

Through Innovation, Qualification and Sustainability, the Portuguese Textile Industry Proudly bounces back with a yearly average growth of 10%, up to an estimated 4.5 Billion Eur on GDP for 2015.

After 15 years marked by a tendency for outsourcing at Asian countries for low prices, the tide now follows the path of Quality at Competitive Prices.

Tailoring Industries such as Twintex which have been investing in Sustainability & Innovation, approach the next Ten years confident that there is a way ahead for Portugal to affirm again its beloved traditional sector, positively influencing the employment rate and economic growth.

Our three Strategic Vectors still are the base of Our Vision: the Twintex Academy qualified 20 new operators who are now employed by us, and starts 2015 qualifying 20 more which will have their new job in July 2015.

The Twintex ECO Fashion concept, again gave a giant step with the 30% reinforcement of our production of electricity through photovoltaic panels, up to an astonishing total of 60% of own production. With the Eco Fashion concept Twintex saved 250 Tons of Emissions of CO₂, over the last two years.

The Twintex LIFE concept has supported 30% more Social causes than the previous year, and still is protecting the ones in need amongst us. At the same time, the Portfolio of Concepts got richer with the inclusion of the Twintex Evolution Concept, our Fourth Strategic Vector.

Also inspiring is the inauguration of Our Second Industrial Plant creating 45 new Jobs, up to a Total of 380 in The Twintex Invest Group.

On the Familiar side, Mariana and Frederica have new brothers to look after with the arrival of Francisco and Manuel.

Lets bring them up with the Twintex PASSION!

(Grand) Father & Founder.

ATM MACHINE FOR TWINTEX

Twintex lives between two beautiful Villages just five 5 minutes from Fundão town center.

It has been long wanted by both the population and the TWINTEX Team an ATM Machine in TWINTEX Head Quarters, that could serve both the residents and the Team of 365 that daily work in Twintex.

Sensible to this matter, and embraced on the Life Concept, TWINTEX soon signed a protocol with Banco Popular to make this intention reality and add one more important service to the local Community.

The building, installation, maintenance and well functioning of the ATM equipment is all of TWINTEX responsibility.

These actions received a very warm welcome, improving the quality of life and at the same time increasing productivity results.

The invitation is here, to come and see all you have to benefit from.

In total, there were created 40 new job opportunities.

In a new Open day at Twintex, The Chorus of Beira Interior opened the ceremony with a brand new piece dedicated to Twintex.

The invitees then proceeded to the TURN ON of the second phase of Twintex's electricity production through photovoltaic Panels, which amazingly increases the production capacity to an astonishing 60% of the total consumption of the Factory.

The speeches of the Mayors of Covilhã and Fundão praised the extraordinary work capacity of the almost 400 collaborators, and agreed that Twintex is an example of pride for the Cova da Beira Region.

The highlight of the ceremony was the presentation of Merit Trophies to the Retired employees, as well as those who count between 25 and 35 years of service.

The end of our Anniversary's Ceremony was truly thrilling with a Tribute from Fundão's Municipality to our Founder, inaugurating the Plate giving the name of António Mineiro Avenue, to Twintex's location.

XMAS

Christmas is the special season for children.

Again our local elementary school presented TWINTEX with a christmas tree using 100% recycled materials resulting from waste of our production.
